Long lasting labels from P-touch

Brother P-touch laminated TZ tapes ensure that your labels, once printed and applied correctly, will last for many, many years.

Made up of six layers of material to form a thin, but extremely durable label which we've tested to the extreme against the affects of abrasion, temperature, chemicals and sunlight. Results prove that Brother P-touch laminated labels out perform those of our competitors.

Increase productivity with the use of clear labelling throughout your office.

The P-touch 2730VP is a stylish, compact and easy-to-use labelling machine that can print high quality labels up to 24 mm in width, either from your PC or using the built-in keyboard and display.

Label and identify the contents of file folders, filing cabinets, cables, CD/DVDs, shelving, stationery, name badges and assets, or create various information signs around your office.

Brother P-touch labels are available in a large variety of widths and colours, so you're sure to find one for your needs, whatever the labelling application.

P-touch 2730VP Labelling Machine

With an easy-to-read backlit LCD display and the flexibility to print labels directly from your PC or Mac using the supplied label design software, this advanced labelling machine contains features designed to make the creation of labels easy.

There are 42 pre-set formats for common labelling tasks (such as file folders / CD cases etc), and the "Label Collection" feature lets you view up to 75 pre-set label designs on the LCD display, then print the chosen design.

Other features, such as a built-in clock and a text reminder feature, help make any labelling task simple to complete, and the P-touch 2730VP an invaluable tool to have around the office.

P-touch 2730VP features

- Each label is cut to the correct length thanks to the built-in automatic cutter.
- The text reminder feature suggests previously typed words, saving you time when printing many labels with the same text.
- The dedicated "Label Collection" key gives you instant access to up to 75 pre-set graphic label designs in 18 languages. Simply choose your label on-screen then print!
- Print up to 7 lines of text on a 24 mm wide label.
- Preview your label on the graphic LCD before printing.
- Choose any of the 42 auto formats for easy labelling of files folders, CD/DVD cases etc.
- Print labels from 3.5 mm to 24 mm in width. A wide variety of label colours, sizes and materials are available.
- Print labels from your PC or Mac using the built-in USB port.
- Powered by batteries (not supplied) or AC adapter (supplied).
- Large, easy-to-read 3 line back-lit LCD display.
- With 8 fonts, 10 typestyles and 20 frames to choose from, each label can be as individual as you are.
- 253 symbols are available to add onto your labels.
- Add the current date or time on your label - ideal when archiving documents.

Create stylish graphic labels with the Label Collection feature

The P-touch 2730VP has 55 pre-set graphic labels built-in. With just a few key presses you can quickly view each of these labels on the graphic LCD display, choose the one required and then print. The entire process takes just seconds to complete. With 18 language translations, each label can be printed in a language other than your usual one, if and when required.

In addition to these built-in designs, you can view many more on the internet, then choose, download and store 20 of these from your PC* to the memory of the P-touch 2730VP.

*Windows PCs only

Create fully customised labels using the supplied easy-to-use label design software

Clearly labelled files help improve efficiency around the office

The built-in Label Collection designs include commonly used signage

With a wide variety of label widths and colours available, there is a tape for all your applications
