

## DIY Tips

The compact sewing and embroidery machine with LCD touch screen and automatic need threading.

## D.I.Y Your Own IPAD Case

Create Personalised Idea!

### Material

Prepare the material and trim the fabric according the measurement given.

- 1 pcs - Body: 58cm x 27cm
- 1 pcs - Embroidered badge
- 1 pcs - Small rectangular shape
- 1 pcs - Button

### The step by step

1. Sew a decorative stitches on top of the badge and sew a top stitches around the cover.
2. Attach and sew the inner layer to support the buttonhole area.
3. Select a buttonhole design and sew it at the rectangular shape area.
4. On the opposite side measure the length and attach the button as picture show.
5. Fold the body into half (exclude the cover area) and sew along the body, at the end button it up and that will be your Ipad case.
